

# LT Pipe V1.0

LT Pipe can be downloaded and purchased at [www.s9design.com](http://www.s9design.com)  
Phone: +61 3 9815 0640 Fax: +61 3 9819 0110

**LT Pipe** offers a quality set of piping tools and fittings for AutoCAD® LT 2007 & 2008. Tools include: various pipe drawing routines, pipe sections and ends, flanges, elbows, reducers and flow arrows. A bonus construction line and layer toolbar are also included.

ANSI Standard pipe sizes can be selected by the using the **LT Pipe** toolbars, or custom pipe sizes can be saved and used to draw any size pipe.

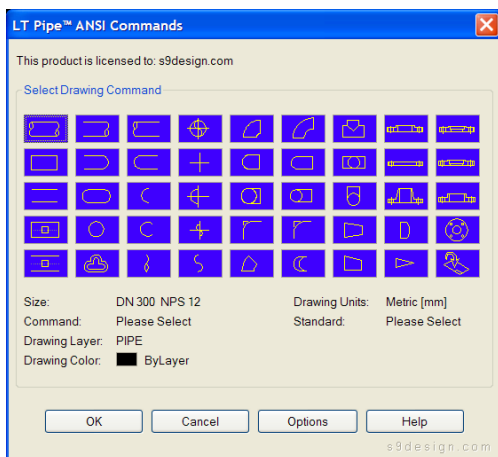

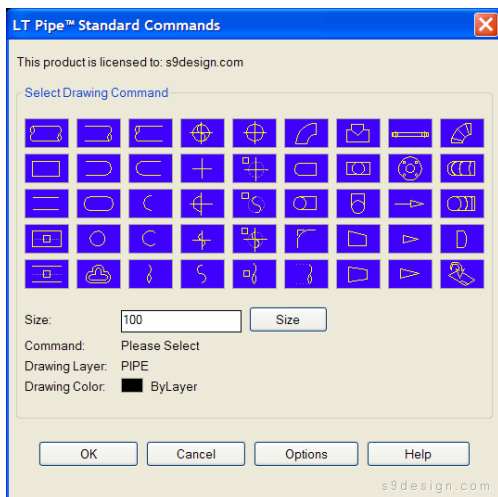

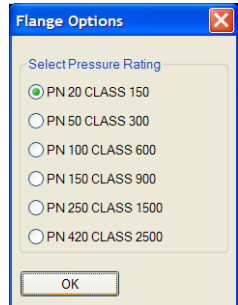

LT Pipe Metric & Imperial Toolbars give you access to piping tools and hundreds of fittings.

The new Layer Toolbar is available free to registered users and brings together a set of existing and new layer control and property commands. Also included free is the Construction Line toolbar which assists with pipe line placement.

Six flange pressure ratings are available in LT Pipe.
